

## Nexrad In The Cockpit

The IMC Club, through its nationwide chapters provides organized “hangar flying” focused on building proficiency in instrument flying. Safety and proficiency are developed through education and experience. These monthly meetings use real world scenarios to engage our members and allow them to share and build their experience. You do not have to be instrument rated to attend. This will be an open discussion on the use and interpretation of cockpit weather. We will use a video presentation of a scenario to spark a conversation on in-flight decision making. Click the link below and register TODAY.

**Directions:** The seminar will be held in the conference room below the restaurant.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the “Contact Information” area of the meeting/event notice. Note that two weeks is usually required to arrange services.
